

ProfitPulse Privacy Policy

Last updated: August 2026

1. Introduction

ProfitPulse ("we", "our", or "the app") is a mobile application that helps small business owners track products, sales, expenses, and profit. This Privacy Policy explains what information we collect when you use the app, how we use it, and the choices you have.

By creating an account and using the app, you agree to the practices described in this policy. If you do not agree, please do not use the app.

2. Information We Collect

We collect only what's needed to operate your account and the business-tracking features you use:

- **Account information:** Your name and email address, collected when you register with email/password or sign in with Apple.
- **Business data you enter:** Product names, cost and selling prices, purchase batch history, stock levels, sales records (product, quantity, price, date), and expense records (title, category, amount, date).
- **App preferences:** Your selected display currency and light/dark theme preference.
- **Authentication metadata:** Standard sign-in metadata generated by Firebase Authentication and, where applicable, Apple's Sign in with Apple service.

We do not collect your location, contacts, photos, camera, or microphone data, and the app does not contain advertising or third-party analytics/tracking SDKs.

3. How We Use Your Information

We use the information described above solely to:

- Create and secure your account, and let you sign in across sessions.
- Store and display the products, sales, and expenses you record, and calculate related figures such as profit, stock levels, and analytics shown on your dashboard.
- Convert amounts into your selected display currency using live exchange rates.
- Respond to support requests you send us.

We do not use your information for advertising, and we do not sell or rent your personal information to anyone.

4. Where Your Data Is Stored

Your account and business data are stored in Google's Firebase Cloud Firestore, a secure cloud

database. Access to your data is restricted to your own authenticated account through Firebase security rules - other users of the app cannot see your products, sales, or expenses. Data is encrypted in transit using industry-standard HTTPS/TLS.

5. Third-Party Services

We rely on a small number of third-party service providers to operate the app:

- **Firebase Authentication & Cloud Firestore (Google):** used for account sign-in and to store your app data. See Google's Privacy Policy for how Firebase handles infrastructure-level data.
- **Sign in with Apple:** an optional sign-in method; if used, Apple provides us your name and email address (or a private relay email) per your Apple ID settings.
- **exchangerate-api.com:** provides live currency conversion rates. Only currency codes are sent to this service - no personal or business data is shared with it.

These providers process data on our behalf and are not permitted to use it for their own purposes beyond operating the service we've integrated.

6. Data Retention & Deletion

Your data is retained for as long as your account remains active. You can permanently delete your account at any time from Profile > Danger Zone within the app. Deleting your account permanently removes your profile and all associated products, sales, and expense records from our database. This action cannot be undone.

7. Your Rights & Choices

Depending on where you live, you may have rights to access, correct, or delete your personal information. You can:

- Edit your name at any time from the Profile screen.
- Choose your display currency and theme from Settings.
- Delete your account and all associated data from Profile > Danger Zone.
- Contact us at owennsofu01@gmail.com with any privacy questions or requests.

8. Children's Privacy

ProfitPulse is intended for business owners and is not directed at children under 13. We do not knowingly collect personal information from children. If you believe a child has provided us with personal information, please contact us and we will delete it.

9. Changes to This Policy

We may update this Privacy Policy from time to time to reflect changes in the app or applicable law. We will post the updated policy at the link below with a revised "Last updated" date. Continued use of the app after changes take effect constitutes acceptance of the updated policy.

10. Contact Us

If you have questions about this Privacy Policy or how your data is handled, contact us at owennsofu01@gmail.com.
